Pateicoties sava tehniskā biroja profesionalitātei, Ghisarredo spēj sniegt savas zināšanas, lai izpētītu kompozīcijas, kas vislabāk atbilst klientu vajadzībām, un izstrādātu individuāli pielāgotus risinājumus, kur stilistisku vai arhitektonisku iemeslu dēļ ir nepieciešama pielāgošana. Šajās lappusēs mēs parādām dažus pielāgojumu piemērus, kas veikti nespecifisku pieprasījumu rezultātā. Kāpnes var veikt arī mērišanai ar stikla pakāpieniem vai ar lāzera griezuma tērauda pakāpieniem.

Thanks to the professionalism of its technical office, Ghisarredo is able to provide its expertise to study the best compositions suited to the needs of its customers. Its skill is also to design solutions on demand where customization is required for stylistic or architectural reasons. In these pages we show some examples of customizations produced following specific requests. Customizations can include staircases with glass steps or with laser cut steel steps.
