FILOSOFIA

Mūsu vēsture un
pilsētas mums
atgādina, ka
pagātne ir visā, ko
mēs dzīvojam.
Mēs varam
nodrošināt, ka šī
pagātne var
turpināt dzīvot
pēc skaistuma, ko
mēs varam
turpināt radīt
apkārt
mūs neaizmirstot
paturēt acu
priekšā nākotni.

PHILOSOPHY

Our heritage and our
towns remember us
that the past is anywhere
around us and around
our livings. We can make
sure that this heritage can
continue to live thanks to the beauty
we could be able to create in spaces we
live, without forgetting to keep a look to the future.

atjaunojot vēsturiskās saplūšanas, kas
ieskauj vēsturiskās ēkas un tā laika
elegantās kāpnes to sākotnējā
krāšņumā, mēs katru dienu lepojamies
ar savu darbu. Mums ir gods spēt
palīdzēt atjaunot un uzturēt daļu no
mūsu vēstures.

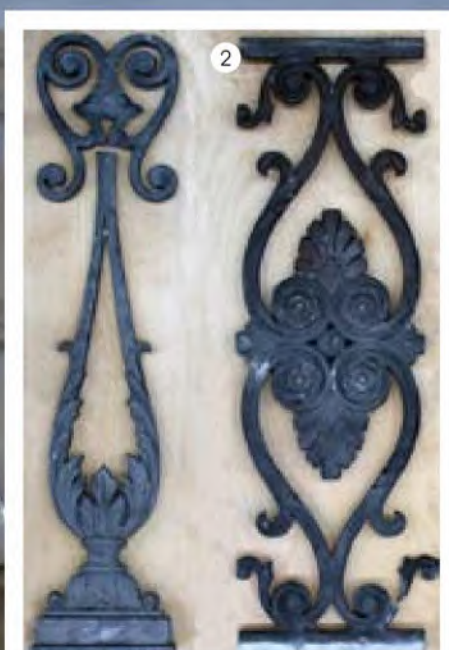

We are truly proud of our job each
time we can bring back to the original
splendor the old castings of the
historical buildings and elegant period
stairways. It is an honour for us to
contribute to the restyling and
maintenance of a part of our heritage.

Balkona piemērs, kas izgatavots no čuguna margām, kas reproducētas no perioda oriģināla. Gala rezultāts ir piemērots gan vēsturisko ēku atjaunošanai, gan mūsdienīgai videi ar klasisku garšu.

Example of a balcony made with a cast iron railing reproduced from an original of the period. The final result fits both renovations of historical buildings and modern environments with classic vibe.
